

## BEGINNER'S DAY

SATURDAY, OCTOBER 29, 2011 • 9 AM–5 PM

SHERATON AT THE FALLS 300 Third Street, Niagara Falls, NY

9–10:30 AM

### 12 CHARACTERS IN SEARCH OF AN AUTHOR

*Chantal Patenaude*

*In this light-hearted, fast-paced presentation, we will blend archetypes, mythological characters and variations on the themes represented by each sign of the zodiac, including highly and less evolved expressions of these energies. We'll also include examples taken from current affairs and headlines.*

10:45 AM–12:15 PM

### DANCING WITH THE STARS!!!!

*Dr. Patricia Bell*

*Who is ruling whom? Are they stars, are they planets? How do they affect me? What do they say in my own chart? How can I use this knowledge to better understand myself? This class will give you an opportunity to learn the rulerships of the planets and how they can teach you more about you and those you care about.*

2–3:30 PM

### ASPECTS: WHAT IN THE WORLD ARE THE PLANETS "SAYING" TO EACH OTHER?

*Cassandra Butler*

*As the world turns and time evolves, so do the aspects, or geometrical patterns between planetary bodies. When you understand the structure of the major aspects, then you will truly understand the dynamic nature of astrology. During this information-rich class, Cassandra will present an introduction to astrological aspects along with some interactive exercises. The major aspects – conjunction, sextile, square, trine and opposition – will be illustrated, defined and experienced. You will have a deeper appreciation of how astrology 'works' at completion of the session.*

3:45–5:15 PM

### PHASES OF THE MOON

*Julie Simmons*

*Julie will explain the phases of the Moon not only as they relate to your natal chart, but also as they relate to the month ahead (transits). Learn what it means to be born under a Crescent, Gibbous, Balsamic, or any other Moon. And learn why some phases of the Moon are better for some sorts of activities than others.*
